Subject: Destin Workshop

Dear Terry:

I wanted to thank you and everyone at Applegate who helped to coordinate the training session in Destin.

What a nice bunch of folks! I felt like I was with family. I wish I'd had this information when I started with cellulose months ago. I promise to read all the information and may have more questions. Applegate is the only way to go, when you speak of Insulation.

I look forward to working with Don and Duke and hope to see you in the future. Please let me know if there is anything besides sales that I can do for you.

Again, thank you for your time and effort. You really know your business.
Bless you all.

Mike Warlick
