Larry Sinn, President
TSC, Inc. / The Service Company
201 Tandem Drive
Greer, SC 29650

Dear Larry;

We would like to thank you for introducing your “Healthy Home Services” to me when I asked you several months ago to quote on a HVAC System for the new house my wife Charlene and I were building for ourselves in the Roper Mountain Estates, Subdivision.

Charlene and I have sold hundreds of properties to our clients the last twenty-seven, plus years, and many properties were new builds. Finally, we had the joy, privilege, and challenge of over-seeing the construction of our own personal home. We moved in August 24, Charlene’s birthday.

One of the good benefits of your “Healthy Home Services” was the **cellulose insulation**. In addition to the **expected substantial reduction in energy costs**, we were pleasantly surprised at the **obvious reduction in noise level** from low flying aircraft. As you probably know, we are directly in the flight path to the main runway at the Greenville / Spartanburg Jetport.

As a former engineer, I was keenly aware of the many benefits of your “Healthy Home Services” when you presented them to me several months ago. This **reduction in noise level** allows us to enjoy our new home in a way we had not even expected.

Thank you very much, Larry!! We have already shared this with our clients and friends, and we will continue to do so.

Sincerely,

Robert and Charlene Clark, Realtors®
